MATERIA NEL TEMPO

TRAME DI PIETRA®

Trame di Pietra®, a new collection in stone and marble launched by TWS.

For thirty years, TWS has faced a daily challenge: promote culture of natural stones with sensitivity and curiosity, along with passion and love for natural materials.

After Le Pietre Mediterranee®, first product spread in the Italian and international market, TWS launches Trame di Pietra®, a project based on research, testing, knowledge of the materials and creativity of architects and designers.

The goal of the project is proposing an innovative interpretation of classic materials as stone and marble, transforming them into new and contemporary surfaces, three-dimensional effects obtained by a micro-engraving technique for slabs, floor and wall covering on a high variety of sizes and patterns.

MATERIALS – Technical note

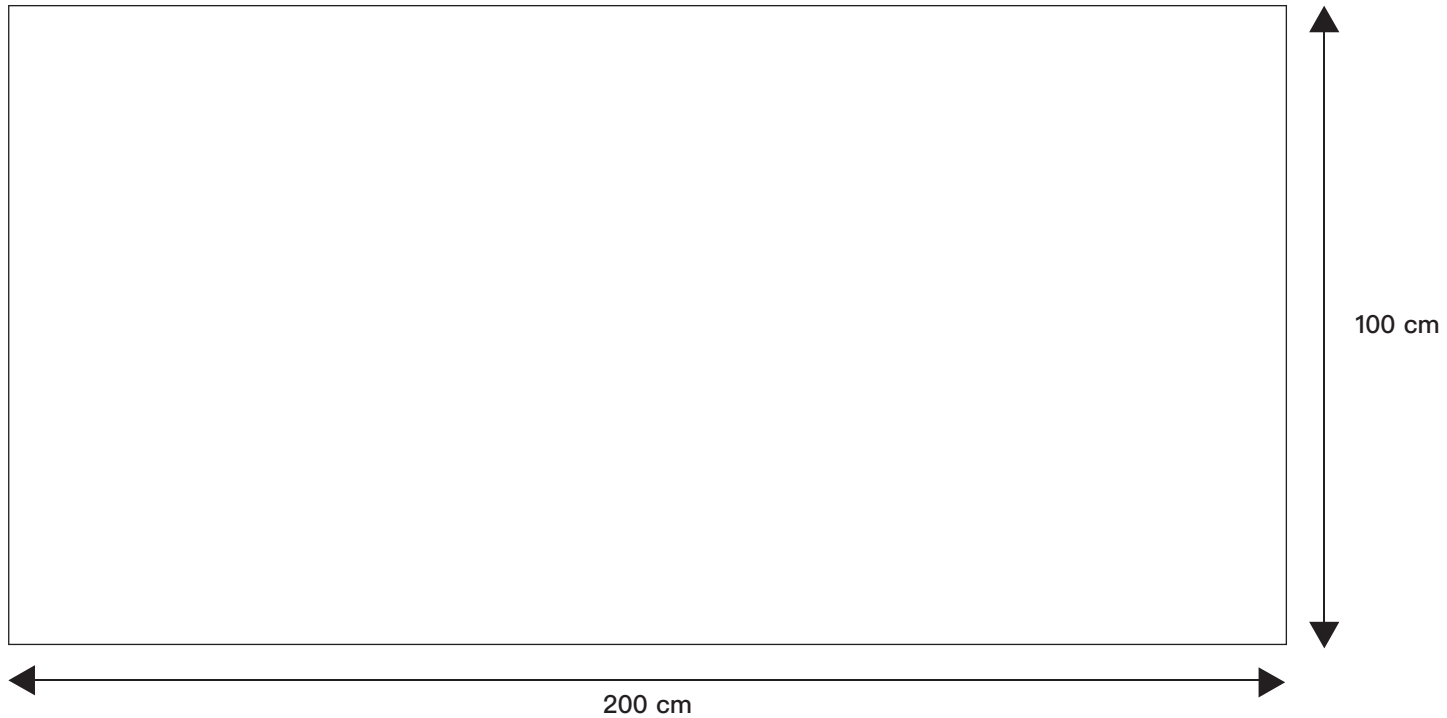

GREIGE is a dark beige natural stone characterised by a medium–low colours variation. It is available in big sizes up to cm 40x100 and cm 60x60.

BEIGE is a natural stone characterised by a medium–high colours variation. TWS makes a selection on materials in order to have a medium colours variation on regular sizes (above all for NAO and CANESTRATO textures on cm 40x40), and a medium–high colours variation on irregular sizes that gives added value to the “Non ordinary patterns”. Beige is available on medium sizes up to cm 40x80 and cm 40x40.

SLABS

100 X 200 CM

SIZES

All the textures are available in slabs in different sizes up to 200x100x2 cm

MATERIALS: Greige – Beige

TEXTURES: Acqua – Archi – Canestrato – Loggos – Penelope – Macro – Tracce – Vibes
